Scott County Central Wellness Policy

Preamble

Scott County Central is committed to the optimal development of every student. The District believes that for our students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during, and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism, and better performance on cognitive tasks. Conversely, less-than-adequate consumption of specific foods including fruits, vegetables, and dairy products, is associated with lower grades among students. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education, and extracurricular activities – do better academically.

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the District have access to healthy foods throughout the school day—both through reimbursable school meals and other foods available throughout the school campus—in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during, and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The District establishes and maintains an infrastructure for management, oversight, implementation, communication about, and monitoring of the policy and its established goals and objectives.

This policy applies to all students and staff members within the School District.

I. School Wellness Committee

Committee Role and Membership

The District has formed a representative district wellness committee that meets at least two times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation, and periodic review and update of this district-level wellness policy (heretofore referred as “wellness policy”). The SCCWC membership will represent all school levels (elementary and secondary schools) and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program (ex., school nutrition director); physical education teachers; health education teachers; school health professionals (ex., health education teachers, school health services staff [i.e., nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services], and mental health and social services staff [i.e., school counselors, psychologists, social workers, or psychiatrists]; school administrators (ex., superintendent, principal, vice principal), school board members; health professionals (ex., dietitians, doctors, nurses, dentists); and the general public. To the extent possible, the SCCWC will include representatives from each school building and reflect the diversity of the community.

Policy Committee:

* The federal law requires each school district to formulate a wellness committee. It is important to include and utilize those that share a vital stake and commitment to our school district. Scott Central has formulated a committee as follows:

- * Two School Administrators
- * Two Classroom Educators
- * Parent/Community member
- * Student
- * School Nurse/Health Professional
- * School Food Service representative

- * School Board member
- * Member of the Health Department
- * Food Service Secretary / Parent
- * Physical Ed./Wellness Coordinator

Scott County Central Wellness Committee Members are as follows:

- * Howard Benyon: District Superintendent
- * Stacey Russell: District Elementary Principal
- * Andrea Heuring: District Home Economics Educator, Coordinator
- * Sue Crocker: District School Nurse
- * Semona Penrod: Elementary Music / P.E., Coordinator
- * Dee Cookson: Board Member
- * Brenda Freed: Scott County Health Department
- * Jean Kambitch: District Teacher, Coordinator
- * Bobbie Woods: District HS Parent Representative
- * Veronica Mills: District Food Service Director, Coordinator
- * Gennell Casey: Meal Count Secretary, Elementary parent
- * Hannah Casey: Student Representative

* Dorothy Blissett: Nutrition Program Associate – University of Missouri Extension Office

Leadership

Designated Committee Member will convene the SCCWC and facilitate development of and updates to the wellness policy, and will ensure the school's compliance with the policy .

II. Wellness Policy Implementation, Monitoring, Accountability, and Community Engagement

Implementation Plan

The District will develop and maintain a plan for implementation to manage and coordinate the execution of this wellness policy. The plan delineates roles, responsibilities, actions, and timelines specific to the school, and includes information about who will be responsible to make what change, by how much, where, and when, as well as specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education, and other school-based activities that promote student wellness. Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation, and generate an annual progress report.

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at District's Main office.

- Documentation demonstrating compliance with community involvement requirements, including (1) These groups' participation in the development, implementation, and periodic review and update of the wellness policy;
- Documentation of annual policy progress reports for the school under its jurisdiction; and
- Documentation demonstrating compliance with public notification requirements, including: (1) Methods by which the wellness policy, annual progress reports, and triennial assessments are made available to the public; and (2) Efforts to actively notify families about the availability of wellness policy.

SCOTT COUNTY CENTRAL WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

Annual Progress Reports

The District will compile and publish an annual report to share basic information about the wellness policy and report on the progress of the schools within the district in meeting wellness goals. This annual report will be published around the same time each year in October and will include information from the District. This report will include, but is not limited to:

- The website address for the wellness policy and/or how the public can receive/access a copy of the wellness policy;
- A description of the school's progress in meeting the wellness policy goals;
- A summary of each school's events or activities related to wellness policy implementation;
- The name, position title, and contact information of the designated District policy leader(s) identified in Section I; and
- Information on how individuals and the public can get involved with the SCCWC.

The annual report will be available in the Superintendents office as well as the Cafeteria Directors office and the Nurse's office.

- *The District will also track and annually report other related information, such as findings from food safety inspections, aggregate participation in school meals programs.*

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

- The extent to which the District is in compliance with the wellness policy;
- The extent to which the District's wellness policy compares to the Alliance for a Healthier Generation's model wellness policy; and
- A description of the progress made in attaining the goals of the District's wellness policy.

The position/person responsible for managing the triennial assessment and contact information is Veronica Mills (SCC Food Service Director). vmills@scottcentral.k12.mo.us

Updates will be made public to families at request and online access.

Revisions and Updating the Policy

The SCCWC will update or modify the wellness policy based on the results of the annual progress reports and triennial assessments, and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The Wellness Policy will be assessed and updated as indicated at least every three years, following the triennial assessment.**

Community Involvement, Outreach, and Communications

SCOTT COUNTY CENTRAL

WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of SCCWC and others can participate in the development, implementation, and periodic review and update of the wellness policy through a variety of means appropriate for our district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating other important school information with parents

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

III. Nutrition

School Meals

Our school district is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; moderate in sodium, low in saturated fat, and zero grams *trans* fat per serving (nutrition label or manufacturer's specification); and to meet the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns, and support healthy choices while accommodating cultural food preferences and special dietary needs.

Our school District participates in the USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP), and [summer feeding program.](#) The District also operates additional nutrition-related programs and activities including [Healthy and Active Group](#). Our school District is committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The District offers reimbursable school meals that meet [USDA nutrition standards](#).)
- Promote healthy food and beverage choices using at least ten of the following

SCOTT COUNTY CENTRAL

WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

- Whole fruit options are displayed ,
 - Sliced or cut fruit is available daily
 - Daily fruit options are displayed in a location in the line of sight and reach of students
 - All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal
 - White milk is placed in front of other beverages in all coolers
 - Student surveys and taste testing opportunities are used to inform menu development,
 - Student artwork is displayed in the service and/or dining areas
 - Daily announcements are used to promote and market menu options
-
- *Menus are placed on the District Website as well as being sent home with each student.*
 - *School meals are administered by a team of child nutrition professionals.*
 - *The District child nutrition program will accommodate students with special dietary needs.*
 - *Students are allowed at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they have received their meal and are seated .Students are served lunch at a reasonable and appropriate time of day.*
 - *Lunch will follow the recess period to better support learning and healthy eating according to class schedules.*
 - *Participation in Federal child nutrition programs will be promoted among students and families to help ensure that families know what programs are available in their children’s school.*
 - *Local and/or regional products are incorporated into the school meal program;*
 - *Messages about agriculture and nutrition are reinforced throughout the learning environment;*
 - *Scott Central utilizes special events, such as tastings, that highlight the local/ regional products.]*

Staff Qualifications and Professional Development

All school nutrition program directors, managers, and staff will meet or exceed hiring and annual continuing education/training requirements in the [USDA professional standards for child nutrition professionals](#). These school nutrition personnel will refer to [USDA’s Professional Standards for School Nutrition Standards website](#) to search for training that meets their learning needs.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day* and throughout every school campus* (“school campus” and “school day” are defined in the glossary). The District will make drinking water available where school meals are served during mealtimes. In addition, students will be allowed to bring and carry (approved) water bottles filled with only water with them throughout the day.

- *All water sources and containers will be maintained on a regular basis to ensure good hygiene standards. Such sources include drinking fountains.*

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus* during the school day* support healthy eating. The foods and beverages sold and served

SCOTT COUNTY CENTRAL WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

outside of the school meal programs (i.e., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits. A summary of the standards and information are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.healthiergeneration.org/smartsnacks.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day* **[and ideally, the extended school day*]** will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, a la carte options in cafeterias, vending machines, school stores, and snacks

Celebrations and Rewards

All foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards **[or, if the state policy is stronger, “will meet or exceed state nutrition standards”]**, including through:

1. Celebrations and parties. The district will provide a list of healthy party ideas to parents and teachers, including non-food celebration ideas. Healthy party ideas from the [Alliance for a Healthier Generation](#) and from the [USDA](#).
2. Classroom snacks brought by parents. The District will provide to parents a [list of foods and beverages that meet Smart Snacks](#) nutrition standards; and
3. Rewards and incentives. The District will provide teachers and other relevant school staff a [list of alternative ways to reward children](#). Foods and beverages will not be used as a reward, or withheld as punishment for any reason, such as for performance or behavior.

4. Fundraising

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus* during the school day*.

- *SCC will encourage MORE NON-FOOD fundraisers to be scheduled and those promoting physical activity (such as walk-a-thons, jump rope for heart, fun runs, etc.).*

SCOTT COUNTY CENTRAL
WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

- *Fundraising during school hours will sell only items or foods and beverages that meet or exceed the Smart Snacks nutrition standards. This may include but is not limited to, cookie dough, candy and pizza sales, etc.*
- **Exemptions:**
SCCWC will allow the following party and celebrations: Christmas party, Halloween, Valentines Day and our annual play day. These days will be free days.
Classroom experiments with foods are also allowable for experimental purpose and education.

Nutrition Promotion

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff and teachers, parents, students, and the community.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will occur through at least:

- Implementing evidence-based healthy food promotion techniques through the school meal programs using [Smarter Lunchroom techniques](#); and
- Promoting foods and beverages that meet the USDA Smart Snacks in School nutrition standards. Additional possible promotion techniques that the District and individual schools may use are available at www.healthiergeneration.org/smartsnacks.

Nutrition Education

The District aims to teach, model, encourage, and support healthy eating by students. Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences, and elective subjects;
- Include enjoyable, developmentally-appropriate, culturally-relevant, and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, and farm visits;
- Promote fruits, vegetables, whole-grain products, low-fat and fat-free dairy products, and healthy food preparation methods;

SCOTT COUNTY CENTRAL
WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

- Emphasize caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Link with school meal programs, cafeteria nutrition promotion activities, Farm to School programs, other school foods, and nutrition-related community services; and
- Include nutrition education training for teachers and other staff.

[Optional additional policy language includes:

- *In elementary schools, nutrition education will be offered at each grade level as part of a sequential, comprehensive, standards-based health education curriculum that meets state and national standards.*
- *All health education teachers will provide opportunities for students to practice or rehearse the skills taught through the health education curricula.*
- *Taught through University of Missouri Extension.*

Essential Healthy Eating Topics in Health Education

The District will include in the health education curriculum the following essential topics on healthy eating:

- The relationship between healthy eating and personal health and disease prevention
- Food guidance from [MyPlate](#)
- Reading and using USDA's food labels
- Eating a variety of foods every day
- Balancing food intake and physical activity
- Eating more fruits, vegetables, and whole grain products
- Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain *trans* fat
- Choosing foods and beverages with little added sugars
- Eating more calcium-rich foods
- Preparing healthy meals and snacks
- Risks of unhealthy weight control practices
- Accepting body size differences
- Food safety
- Importance of water consumption
- Importance of eating breakfast
- Making healthy choices when eating at restaurants
- Eating disorders
- The Dietary Guidelines for Americans
- Reducing sodium intake
- Social influences on healthy eating, including media, family, peers, and culture
- How to find valid information or services related to nutrition and dietary behavior
- How to develop a plan and track progress toward achieving a personal goal to eat healthfully
- Resisting peer pressure related to unhealthy dietary behavior
- Influencing, supporting, or advocating for others' healthy dietary behavior

[USDA's Team Nutrition](#) provides free nutrition education and promotion materials, including standards-based nutrition education curricula and lesson plans, posters, interactive games, menu graphics, and more.

Food and Beverage Marketing in Schools

The District is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. The District strives to teach students how to make informed choices about nutrition, health, and physical activity. These efforts will be inconsistent if students are subjected to advertising on District property that contains messages not promoting the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Any foods and beverages marketed or promoted to students on the school campus* during the school day* will meet or exceed the USDA Smart Snacks in School nutrition standards.

Food advertising and marketing is definedⁱ as an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller, or any other entity with a commercial interest in the product. This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors.
- Corporate brand, logo, name, or trademark on school equipment, such as marquees, message boards, scoreboards, or backboards (Note: immediate replacement of these items are not required; however, districts will consider replacing or updating scoreboards or other durable equipment over time so that decisions about the replacement include compliance with the marketing policy.)
- Free product samples, taste tests, or coupons of a product, or free samples displaying advertising of a product.

IV. Physical Activity

Children and adolescents should participate in 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive, school-based physical activity program that includes these components: physical education, recess, classroom-based physical activity, and out-of-school time activities and the district is committed to providing these opportunities. Schools will ensure that these varied opportunities are in addition to, and not as a substitute for, physical education. Physical activity during the school day (including but not limited to recess, physical activity breaks, or physical education) **will not be withheld** as punishment for any reason [*"This does not include participation on sports teams that have specific academic requirements.*]. The district will provide teachers and other school staff with a [list of ideas](#) for alternative ways to discipline students.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

- *Through a formal joint or shared use agreements indoor and outdoor physical activity facilities will be open to students, their families, and the community outside of school hours. Providing guidance regarding joint or shared use agreements.*
- *The District will work with school to ensure that inventories of physical activity supplies are known and, when necessary, will work with community partners to ensure sufficient quantities of equipment are available to encourage activity for as many students as possible.]*

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts. All students will be provided equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District **elementary students** in each grade will receive physical education for at least 60-89 minutes per week throughout the school year

All District **secondary students** (middle and high school) are required to take the equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments and will use criterion-based reporting for each student.

-
- *Students will be moderately to vigorously active for at least 50% of class time during most or all physical education class sessions . All physical education teachers will be required to participate in at least once a year professional development in education .*
 - *All physical education classes in [District] are taught by licensed teachers who are certified or endorsed to teach physical education.*
 - *Waivers, exemptions, or substitutions for physical education classes are not granted.*

Essential Physical Activity Topics in Health Education

The District will include in the health education curriculum the following essential topics on physical activity: **University Missouri Extension, teaches elementary students once a month on the importance of healthy eating choices as well as exercise. Monitoring BMI from Elementary as well as High School. The Healthy active Group promotes exercise programs that involve students as well as parent: Family Game Night , Kickball ,Dodge ball , Soft ball Tournament Student -Teachers.]**

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise, and fitness
- Phases of an exercise session, that is, warm up, workout, and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching
- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia, and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time, and type of physical activity
- Developing an individualized physical activity and fitness plan
- Monitoring progress toward reaching goals in an individualized physical activity plan
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers, and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity

SCOTT COUNTY CENTRAL

WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

Recess (Elementary)

All elementary schools will offer at least **20 minutes of recess** on all or most days during the school year (Students have 100 hours of scheduled recess per week. *This policy may be waived on early dismissal or late arrival days*). If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing time, as well as time to put away coats/hats/gloves, will be built in to the recess transition period/timeframe before students enter the cafeteria.

Outdoor recess will be offered when weather is favorable for outdoor play. *[Depending on weather conditions ,when outdoor temperature is above/below District-set temperature, inclusive of wind chill factors, , during storms with lightening or thunder, or at the discretion of the building administrator based on his/her best judgment of safety conditions.]*

In the event that the district must conduct **indoor recess**, teachers and staff will follow the indoor recess guidelines that promote physical activity for students, to the extent practicable. *[Students are instructed on these days to have kick-ball , dodge-ball, dance or some other activity chosen by teacher on duty for indoor recess in the old gym at the high school .*

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered **periodic opportunities** to be active or to stretch throughout the day on all or most days during a typical school week. The District recommends teachers provide short (3-5 minute) physical activity breaks to students during and between classroom time. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

The District will provide resources and links to resources, tools, and technology with ideas for physical activity breaks. Resources and ideas are available through [USDA](#) and the [Alliance for a Healthier Generation](#).

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies, and others) and do their part to limit sedentary behavior during the school day.

SCOTT COUNTY CENTRAL
WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day through a variety of methods. The District will encourage students to be physically active before and after school by: *[having access to any activity such as walking, basketball in the gymnasium. The gym is open to students in the morning and after school hours. Students have access to the weight room, and table tennis in the student lounge.]*

The healthy and active group sponsors a walk-a-thon and encourages students as well as parents and faculty to participate.

Elementary students also have opportunity to participate in dance exercise on days that are unfavorable to go outside and engage in activities.

I. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues, and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition, and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development, and strong educational outcomes.

The District is encouraged to support and coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state, or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and complementary of the wellness policy, including but not limited to ensuring the involvement of the SCCWC.

All school-sponsored events will adhere to the wellness policy. All school-sponsored wellness events will include physical activity opportunities.

Community Partnerships

The District will continue to incorporate relationships with the Scott County Health Department as well as other dietary and local businesses, in support of this wellness policy's implementation. These partnerships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

SCOTT COUNTY CENTRAL
WELLNESS POLICY ADAPTED FROM ALLIANCE FOR A HEALTHIER GENERATION

As described in the “Community Involvement, Outreach, and Communications” subsection, the District will use electronic mechanisms (such as email or displaying notices on the district’s website), as well as non-electronic mechanisms, (such as newsletters, presentations to parents, or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The SCCWC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources, and performs other functions that support staff wellness in coordination with human resources staff. **The sub-committee leader’s name is Sue Crocker.**

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. **Examples of strategies school uses, as well as specific actions staff members can take, include Contests to encourage healthy weight loss and opportunities to use exercise equipment and exercise classes.** The District promotes staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

- *The District will use a healthy meeting policy for all events with available food options, created by the SCCWC or one that currently exists that optimizes healthy food options with a variety of choices and selections of healthy foods for a variety of dietary needs.]*

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school by incorporating nutrition lessons into math class. Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

Glossary:

SCCWC----Scott County Central Wellness Committee

Extended School Day – The time during before and after school activities that includes clubs, intramural sports, band and choir practice, rehearsals, etc.

School Campus - areas that are owned or leased by the school and used at any time for school-related activities such as the school building or on the school campus, including on the outside of the school building, school buses or other vehicles used to transport students, athletic fields, and stadiums (e.g. on scoreboards, coolers, cups, and water bottles), or parking lots.

School Day - midnight the night before to 30 minutes after the end of the instructional day.

Triennial – recurring every three years.
