SCOTT COUNTY CENTRAL HIGH SCHOOL
BE SAFE. BE RESPECTFUL. BE RESPONSIBLE.

Our mission is to prepare all students for academic excellence, be independent life-long learners, and tolerant, contributing members of a global community.

Helping you achieve your academic goals

If you look up the definition for school it says an institution for educating children. The reason we all attend school is to learn. To help us achieve this goal, the teachers have implemented a new strategy called Assessment Capable Learners. This strategy allows us, the students, to set goals based on what we are learning. Before this new way of setting goals was introduced, all the students were graded the same. Teachers would teach a subject, practice it, and then test over it. The grades were then reported to the students, their families, and the public. Students' inputs were left out before. The new idea of the Assessment Capable Learners should allow the students to be more involved in the assessment process. Students get to be the heart of the assessment process and teachers will get to use the learners themselves. This will be beneficial to everyone because the teachers will not just rely on test scores. When we learn how to learn, we will be able to achieve the academic goals we want. Whether it is being valedictorian, being a gold student every month for this school year, or getting the gold or silver award in your favorite class at the end of the year, the Assessment Capable Learners strategy will help everyone. Written by Valerie Hubbert, NHS President.
